

Project Initialization and Planning Phase

Date	30 June 2026
Team ID	N/A
Project Name	Personalized Networking Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A professional, student, or job seeker attending networking events.	Start meaningful conversations, build professional connections, and discuss relevant topics confidently.	I often don't know how to begin conversations or verify information during discussions.	Existing networking tools do not provide personalized conversation suggestions or instant fact-checking based on my interests.	Nervous, unprepared, and less confident while networking.
