

Team Involvement in Demonstration

Date	01 July 2026
Team ID	N/A
Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and responsibilities of each team member during the project demonstration. It ensures that every member contributes effectively to presenting the Personalized Networking Assistant, including its architecture, implementation, testing, and future enhancements.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Garudappagari Pallavi	Team Lead & Presenter	Project Introduction and Problem Statement	Introduced the project objectives, problem statement, and coordinated the overall project demonstration.	Active
2	Dandu Thanishka Reddy	Solution Presenter	System Architecture & Application Workflow	Explained the system architecture, technology stack, Groq API integration, FastAPI backend, Streamlit frontend, and SQLite database workflow.	Active
3	Chandana Ganuga	Feature Demonstrator	Live Application Demonstration	Demonstrated user profile input, conversation generation, self-introductions, networking tips, fact verification, conversation history, and feedback management.	Active
4	Gunturi Teja Sekhar Naidu	Technical Presenter	Backend APIs, Testing & Deployment	Explained FastAPI APIs, Wikipedia API integration, SQLite database, testing process, performance testing, and local deployment.	Active

5	Garudappagari Pallavi	Q&A Presenter	Question & Answer Session	Responded to evaluator questions regarding application functionality, architecture, and implementation decisions.	Active
6	Dandu Thanishka Reddy	Closing Presenter	Conclusion & Future Scope	Summarized the project achievements, scalability plans, and future enhancements of the application.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Garudappagari Pallavi
Overall Team Coordination Rating (1–5)	5/5
Any Issues During Demo	Minor API response delay during the initial demonstration.
How Issues Were Resolved	Restarted the FastAPI backend, verified API connectivity, and continued the demonstration successfully.
